Summary

Motivated final-year B.Tech Computer Science student and Java Full Stack Developer with hands-on experience building, testing, and deploying web applications using Java, Spring Boot, Spring Security, React.js, and MySQL. Proven ability to develop secure RESTful APIs, implement JWT authentication and role-based access control, and design scalable full-stack applications. Experienced with JPA/Hibernate, Docker, Git/GitHub, CI/CD, and cloud deployment, with strong foundations in OOP, DSA, debugging, and clean code practices. Quick learner with strong problem-solving and teamwork skills, seeking to contribute to building reliable and scalable software.

Skills

Programming: Java, Python, SQL, JavaScript(ES6+), HTML/CSS

Backend: Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, REST APIs, DTOs

Frontend: React.js, React Hooks, React Router, Context API, Axios, Vite, Recharts, Responsive CSS

Databases: MySQL, JPA ,JPQL,Database Schema Design

Security: JWT Authentication, RBAC, BCrypt, CORS, Stateless Authentication

Testing: JUnit, Spring Boot Test, MockMvc, Integration Testing, E2E Testing

Tools: Git, GitHub, Maven, npm, Postman, Swagger/OpenAPI, IntelliJ IDEA

Devops & Cloud: Docker, Docker Compose, GitHub Actions (CI/CD), Nginx, Render, Cloudinary (Basics)

Projects

FarmBridge — Farmer-to-Buyer Marketplace 2026

- Built a farmer-to-buyer marketplace using Spring Boot and React.js.
- Created REST APIs for products, orders, users, reviews, and wishlist.
- Implemented JWT authentication and role-based access for Admin, Farmer, and Buyer.
- Added product, order, review, notification, and farmer verification features.
- Used MySQL, Docker, GitHub Actions, and deployed the application on Render.

E-Commerce Microservices Application 2025

- Built an e-commerce application using microservices architecture with Spring Boot.
- Developed separate services for Products, Users, Cart, and Orders.
- Implemented Eureka Service Discovery for communication between microservices.
- Used RabbitMQ for asynchronous messaging between services.
- Integrated MySQL with JPA/Hibernate and used Git/GitHub with CI/CD for deployment.

Education

2022–2026 **B.Tech (CSE), AVN Institute of Engineering and Technology** CGPA: 7.67/10

2020–2022 **Intermediate (MPC), Trinity Junior College, Karimnagar** 871/1000

2019–2020 **Secondary School Certificate (SSC), ZPHS Garrepally** GPA: 9.3/10

Certifications

2025 TCS iON Career Edge – Young Professional

2025 Infosys Springboard – Generative AI

2025 Machine Learning Workshop – Innomatics Research Labs
